A National Park is a perfect example of guardianship. The National Parks in Europe include **protected areas** that are distinguished for scientific, natural, cultural and educational **values**.

Many European Parks have been recognized as a basin for the **biosphere**.

All National Parks are open to the **tourism** and they receive public money according to the number of visitors they have every year.

A project about National Park

..to study the National Parks

**..to increase the value of
resources and abilities**

Objectives of Project

Comparing the European National Parks

History of the parks

Laws and **rules** to be observed

Studying **Flora** and **Fauna**

Biodiversity

through

...the experience and the eyes of the students ...

Excursions to National Parks

Photos of flora and fauna

Anthropological study

**Constant conversation in the forum and in the meeting
between students and teachers**

...and tools of teaching

Lessons about the Parks given by a staff of experts

Searches

A forum and **contacts** among students of different countries

Taking part in the activities of the Project

Lessons about the parks...

...and the job in the classroom
